Venue: UG LAB 1, Marudhar Kesari Jain College for Women, Marudhar Nagar,
Chinnakallupalli, Vaniyambadi - 635 751, Vellore District, Tamil Nadu.

About the Workshop

Mobile application development is similar to Web application development and has its roots in more traditional software development. One critical difference is that mobile applications (apps) are often written specifically to take advantage of the unique features, a particular mobile device offers. In the future, it's expected that a majority of mobile application development efforts will focus on creating browser-based applications that are device-agnostic. Browser-based applications are simply websites that are built for mobile browsers. Such sites are built to load quickly over a cellular network and have finger-friendly navigation.

About the College

Sri Marudhar Kesari Jain Trust started the College in 1994. This college provides a congenial atmosphere for the girls who enroll here. It is affiliated to Thiruvalluvar University as an Arts and Science College. Our Institution's Philosophy is Right Faith, Right Knowledge, Right Conduct, Strong values enriched with strong morals and sound character. "The upliftment of rural women empowerment through women education" is our motto.
