REPORT

The Department of Chemistry has organized a Guest Lecture Program on "**PRINCIPLE AND APPLICATIONS OF ELECTROCHEMICAL TECHNIQUES**" on 07.08.2023 (Monday) between 11:30 AM to 01:30 PM. Dr. M.Charumathy, Assistant Professor and Head, Department of Chemistry organized the guest lecture programme and as an initiative welcome address was delivered by Ms. B.Nithishri II M.Sc Chemistry and the introduction on resource person were done by Ms. S. K Roshini III B.Sc Chemistry. Then the session was started Dr. J. Madhavan, **Associate Professor, Department of Chemistry, Thiruvalluvar University, Serkadu, Vellore** has delivered a lecture on the topic "Principles and Applications of Electrochemical Techniques". He explained about the importance of the Conductometric Titration and he explained about the ions which has been present in the elements how they dissociate the ions in between the elements and also he explain about how to plot the graph by using the conductance value. How electrodes plays the vital role in the Electrochemical Technique and some of the Physical terms involved which adds more interactions and interest to wider the techniques that employed in Chemistry with the connects of Supercapacitor.

We received good response from the audience and also they gave very good feedback.

The resource person thanked the organizers for arranging the guest lecture programme. At the end of the session Ms. R. Durga, II M.Sc Chemistry delivered the vote of thanks. She thanked the Resource Person, Management, Principal, and HOD, Faculty members, Participants and other officials for their active support for making the program successful.
