Planting Vegetable Plants in Garden–10.02.2021

REPORT

The way to do fieldwork is never to come up for air until it is all over. Our college's Go green association planted vegetable plants on 10.02.2021 in this event 60 of our college students joined their hand you can find them self-doing fieldwork physically, in the tradition of anthropology. Our college students actively taken part in turning our college garden into green. They have planted many varieties of vegetables in the garden. The students have got the best experience in planting the vegetable garden. Likewise we need to encourage the young generations to create our own garden to avoid the intake of unhealthy vegetables which creates enormous health issues.
