PO6	To make Students to understand the basic concepts of Human Resource Management and techniques of HRM
PO7	To enhance the understanding of the accounts of banking companies and final accounts.
PO8	Enable Students to gain expert knowledge on the principles and law relating to Indirect Taxation and GST in India.
PO9	To enhance the understanding of the basic concepts in Cost Accounting and to extend the knowledge of Methods of Costing Process costing.
PO10	To Learn the Students about History of Income Tax in India, Computation of total income and the assessment procedure

<b>NAME OF THE PROGRAMME: B.COM CA – COURSE OUTCOMES</b>	
<b>SEMESTER I</b>	
<b>FINANCIAL ACCOUNTING – I</b>	<ol style="list-style-type: none"> <li>1. Students will be able to understand the basic fundamental of Double entry system Accounting and Bank Reconciliation Statement.</li> <li>2. Students will be able to prepare the Depreciation accounting.</li> <li>3. Students will be able to understand the accounting treatment of trade bills</li> <li>4. Students will be able to prepare the accounts in Final Accounts</li> <li>5. Students will be able to prepare the accounts in Single Entry System</li> </ol>
<b>BUSINESS APPLICATION &amp; ACCOUNTING SOFTWARE</b>	<ol style="list-style-type: none"> <li>1. Students will be able to create documents and format text in Microsoft Word, Create and edit a table, Create workbooks and format text in Microsoft Excel, add worksheets, organize data, and create charts in Microsoft Excel, Sorting and Filtering.</li> <li>2. Students will be able to Create presentations with images, Create a database structure using MS Access, work with records in a database table, and create meaningful reports from tables</li> <li>3. Students will be able to create a company, ledger, and voucher in tally and also know how to maintain the daybook.</li> <li>4. Students will be able to Create and maintain inventory information in tally.</li> <li>5. Students will be able to Goods and Service Taxes (GST), Tax Deducted at source (TDS), Tax Collected at source (TCS) and Service Tax.</li> </ol>
<b>INDIAN ECONOMY - I</b>	<ol style="list-style-type: none"> <li>1. Students will be able to understand the various indicators of economic development.</li> <li>2. Students will be able to understand the importance, causes and impact of population growth.</li> <li>3. Students will be able to gain knowledge about the role of agriculture in economic development.</li> <li>4. Students will be able to gain knowledge about the role of agriculture labour problems and remedies .</li> <li>5. Students will be able to understand the industrial development during plan periods.</li> </ol>
<b>BUSINESS STATISTICS - I</b>	<ol style="list-style-type: none"> <li>1. Students will be able to the concept of statistics and Collection of Data</li> <li>2. Students will be able to provide practical exposure on calculation of Measures of Central tendency</li> <li>3. Students will be able to provide practical exposure on calculation of measures of Dispersion</li> <li>4. Students will be able to provide practical exposure on calculation of Measures of Skewness.</li> <li>5. Students will be able to Knowledge about the LPP and Simplex Method.</li> </ol>
<b>CONSUMER PROTECTION AND CONSUMER RIGHTS</b>	<ol style="list-style-type: none"> <li>1. Students will be able to understand the objectives and salient features of Consumer Protection Rights Act 1986.</li> <li>2. Students will be able to Understand the consumer dispute and Restrictive Trade Practice</li> <li>3. Students will be able to make out the various consumer rights</li> <li>4. Students will be able to get knowledge about the Consumer protection</li> </ol>

	council. 5. Students will be able to learn the redressal of consumer grievances.
<b>SEMESTER- II</b>	
FINANCIAL ACCOUNTING II	<ol style="list-style-type: none"> <li>Students will be able to understand the basic fundamentals of branch accounting</li> <li>Students will be able to understand the basic fundamentals of Departmental accounting</li> <li>Students will be able to understand the Hire purchase and Installment System of accounting</li> <li>Students will be able to prepare the accounts partnership in fundamentals and reconstitution of partnership.</li> <li>Students will be able to understand the basics of Tally Accounting</li> </ol>
INDIAN ECONOMY - II	<ol style="list-style-type: none"> <li>Students will be able to understand the formation of National Income.</li> <li>Students will be able to acquire knowledge about the planning in India.</li> <li>Students will be able to clarify the economic reforms and LPG policy.</li> <li>Students will be able to understand the transport system and policy in India.</li> <li>Students will be able to understand the information technology in India.</li> </ol>
LOGISTIC MANAGEMENT	<ol style="list-style-type: none"> <li>Students will be able to understand the objectives and functions of Logistics Management</li> <li>Students will be able to understand the components of Supply Chain, warehouse layout and Inventory Management.</li> <li>Students will be able to gain knowledge about the Transportation.</li> <li>Students will be able to gain knowledge about the Logistical packaging and outsourcing.</li> <li>Students will be able to understand the Government policies and regulations under Motor Vehicles Act and Documentation.</li> </ol>
BUSINESS STATISTICS II	<ol style="list-style-type: none"> <li>Students will be able to provide practical exposure on calculation of Correlation</li> <li>Students will be able to To provide practical exposure on calculation of Regression</li> <li>Students will be able to provide practical exposure on calculation of Index Number.</li> <li>Students will be able to provide practical exposure on calculation of components of time series.</li> <li>Students will be able to provide practical exposure on calculation of Probability.</li> </ol>
<b>SEMESTER-III</b>	
CORPORATE ACCOUNTING I	<ol style="list-style-type: none"> <li>Students will be able to the basic concepts relating to issue of shares and make accounting entries.</li> <li>Students will be able to make accounting entries for issue of debentures.</li> <li>Students will be able to understand the accounting procedures related to Profits Prior to Incorporation and acquisition</li> <li>Students will be able to Prepare Company Final Accounts &amp; Company Balance Sheet</li> <li>Students will be able to be acquainted with accounting treatment for</li> </ol>

	amalgamation, absorption and reconstruction of business
BUSINESS LAW	<ol style="list-style-type: none"> <li>1. Students will be able to know the framework of Indian Contract Act 1872 and types of contracts</li> <li>2. Students will be able to understand performance of contracts</li> <li>3. Students will be able to Aware the provisions of indemnity and guarantee .</li> <li>4. Students will be able to Be acquainted with contract of agency</li> <li>5. Students will be able to Acquire Knowledge of Sale of Goods Act 1930</li> </ol>
BANKING THEORY, LAW & PRACTICE	<ol style="list-style-type: none"> <li>1. Students will be able to understand the origin of banks</li> <li>2. Students will be able to know the functions and methods of credit control in commercial banks</li> <li>3. Students will be able to understand the different types of bank accounts</li> <li>4. Students will be able to study the different types of negotiable instruments</li> <li>5. Students will be able to acquire the knowledge of different types of lending procedures</li> </ol>
MANAGEMENT INFORMATION SYSTEM	<ol style="list-style-type: none"> <li>1. Students will be able to understand the basic concepts of MIS and knowledge management</li> <li>2. Students will be able to know the functions and different types of information system</li> <li>3. Students will be able to understand the different types system implementation</li> <li>4. Students will be able to study the processing of group responsibility</li> <li>5. Students will be able to acquire the knowledge about maintenance of MIS</li> </ol>
MERCHANT BANKING	<ol style="list-style-type: none"> <li>1. Students will be able to gain knowledge about merchant banking.</li> <li>2. Students will be able to impart effective knowledge about public issue management</li> <li>3. Students will be able to learn about post issue management</li> <li>4. Students will be able to gain knowledge about capital market instruments.</li> <li>5. Students will be able to learn about port folio management</li> </ol>
ELEMENTS OF INSURANCE	<ol style="list-style-type: none"> <li>1. Students will be able to understand the basic fundamentals of insurance</li> <li>2. Students will be able to apply the fundamentals of life insurance</li> <li>3. Students will be able to understand the fundamentals of marine insurance.</li> <li>4. Students will be able to know the different types of marine insurance policy</li> <li>5. Students will be able to understand the principles of fire insurance</li> </ol>
ELEMENTS OF ACCOUNTANCY	<ol style="list-style-type: none"> <li>1. Students understand the concepts of management learn the roles, skills and functions of management related to Business.</li> <li>2. Students develop optimal managerial skills in planning and in taking decisions</li> <li>3. Students develop knowledge to organize program.</li> <li>4. Students acquires in depth knowledge in Communication, Leadership, Controlling, Motivation and Delegation</li> <li>5. Students can control and coordinate.</li> </ol>
<b>SEMESTER- IV</b>	
CORPORATE ACCOUNTING II	<ol style="list-style-type: none"> <li>1. Students will be able to impart the knowledge of valuing shares and goodwill of the company.</li> <li>2. Students will be able to understand the accounting procedures for liquidation of companies.</li> <li>3. Students will be able to be acquainted with accounting procedures for banking</li> </ol>

	<p>and insurance companies.</p> <ol style="list-style-type: none"> <li>Students will be able to prepare consolidated financial statements of Holding company and its subsidiary companies.</li> <li>Students will be able to know the accounting procedures related to preparation of inflation accounts.</li> </ol>
PRINCIPLES OF MARKETING	<ol style="list-style-type: none"> <li>Students will be able to know the basic principles and practices of marketing.</li> <li>Students will be able to be aware of the importance of market segmentation</li> <li>Students will be able to understand the pricing mechanism of marketing and the marketing mix pattern</li> <li>Students will be able to articulate sales Promotional techniques used in modern marketing and different channels of distribution</li> <li>Students will be able to explore the recent trends in marketing</li> </ol>
RDBMS	<ol style="list-style-type: none"> <li>Students will be able to describe the database architecture and its applications Sketch the ER diagram for real world applications Uses various ER diagram for a similar concepts from various sources.</li> <li>Students will be able to discuss about the relational algebra and calculus Construct various queries in SQL and PL/SQL Compiles various queries in SQL, Relational Calculus and Algebra</li> <li>Students will be able to Describe the various normalization forms Apply the normalization concepts for a table of data Practices a table and implement the normalization concepts</li> <li>Students will be able to explain the storage and accessing of data.</li> <li>Students will be able to illustrate the query processing in database management. Define the concurrency control and deadlock concept</li> </ol>
RDBMS LAB	<ol style="list-style-type: none"> <li>Design and Implement a database schema for a given problem domain.</li> <li>Populate and Query a database using SQL DDL/DML Commands.</li> <li>Build well formed in String Date/Aggregate Functions.</li> <li>Design and Implement a database query using Joins, Sub-Queries and Set Operations.</li> <li>Program in SQL including Objects (Functions, Procedures, Triggers)</li> </ol>
E-COMMERCE & ITS APPLICATIONS	<ol style="list-style-type: none"> <li>Students will be able to understand the knowledge of E-Commerce</li> <li>Students will be able to Gaining knowledge on different e-business model</li> <li>Students will be able to know the E-Filing systems.</li> <li>Students will be able to Knowledge on internet operation and creation of E-Mail id</li> <li>Students will be able to conceive an idea of legal framework on the website strategies and design.</li> </ol>
INDUSTRIAL ORGANISATION	<ol style="list-style-type: none"> <li>Students will be able to gain the knowledge on the industrial revolution and industrial growth in India</li> <li>Students will be able to gaining knowledge on different industrial business ownership model</li> <li>Students will be able to know the need for plant location and a good plant layout</li> <li>Students will be able to knowledge on product design, product planning and product control</li> </ol>

	5. Students will be able to conceive an idea of material management and inventory control in business
TRAINING DEVELOPMENT	<ol style="list-style-type: none"> <li>1. Students will know the basic concepts of training, identify training needs and functions of training department.</li> <li>2. Students will know the various on-the-job and off the job techniques of training.</li> <li>3. Students will have a clear picture about career planning and development.</li> <li>4. Students understand the different techniques of management development programme.</li> <li>5. Students will know the information about the different management training institutes in India.</li> </ol>
<b>SEMESTER-V</b>	
COST ACCOUNTING-I	<ol style="list-style-type: none"> <li>1. Students will be able to understand the Nature and Scope of Cost Accounting, and Computation of Cost Sheet and Tenders</li> <li>2. Students will be able to learn the preparation of Material Purchase and Control.</li> <li>3. Students will be able to impart knowledge about Methods of pricing of Material Issues.</li> <li>4. Students will be able to study about preparation of Labour Cost Control and calculate the wages and bonus of labourers.</li> <li>5. Students will be able to gain knowledge about Distribution of Overheads.</li> </ol>
MANAGEMENT ACCOUNTING	<ol style="list-style-type: none"> <li>1. Students will be able to learn the preparation of Financial Statement Analysis.</li> <li>2. Students will be able to gain effective knowledge about Ratio Analysis</li> <li>3. Students will be able to gain effective knowledge about Ratio Analysis</li> <li>4. Students will be able to study about standard Costing techniques.</li> <li>5. Students will be able to gain knowledge on the preparation of Budget and Budgetary Control</li> </ol>
BUSINESS MANAGEMENT	<ol style="list-style-type: none"> <li>1. Students will be able to Gain Knowledge pertaining to Fundamentals of management.</li> <li>2. Students will be able to gain effective Knowledge pertaining to develop planning</li> <li>3. Students will be able to understand organizing, authority and responsibility and Departmentation.</li> <li>4. Students will be able to Acquire knowledge on span of supervision, motivation , leadership and communication</li> <li>5. Students will be able to understand the techniques of control and coordination.</li> </ol>
INTERNET AND ITS APPLICATIONS	<ol style="list-style-type: none"> <li>1. Students will be able to Gain Knowledge pertaining to Fundamentals of web resources</li> <li>2. Students will be able to gain effective Knowledge pertaining to internet explorer</li> <li>3. Students will be able to Understand and creating E-Mail id.</li> <li>4. Students will be able to acquire knowledge on HTML headers and viruses</li> <li>5. Students will be able to understand the recent trends in digital marketing.</li> </ol>
ENTREPRENEURIAL DEVELOPMENT	<ol style="list-style-type: none"> <li>1. Students will be able to understand the basic concepts and theories of entrepreneurship.</li> </ol>

	<ol style="list-style-type: none"> <li>Students will be able to gain effective Knowledge on the procedure for establishing an enterprise</li> <li>Students will be able to gain knowledge on the different types of organization</li> <li>Students will be able to become familiar with institutions support various forms of assistances and subsidies.</li> <li>Students will be able to understand the concept of women entrepreneurship, qualities of a women entrepreneur, their problems and how to overcome that</li> </ol>
PRACTICAL AUDITING	<ol style="list-style-type: none"> <li>Students will be able to understand the basic concepts and types of audit</li> <li>Students will be able to gain effective Knowledge on the meaning of internal control, internal check and audit</li> <li>Students will be able to gain knowledge on vouching of trade transactions</li> <li>Students will be able to become familiar verification an valuation of assets and liabilities</li> <li>Students will be able to understand the audit procedure, appointment, removal, rights and duties of an auditor</li> </ol>
INCOME TAX LAW AND PRACTICE-I	<ol style="list-style-type: none"> <li>Students will be able to understand the basic level of Income tax Act.</li> <li>Students will be able to gain effective Knowledge on tax calculation of salaried people.</li> <li>Students will be able to gain knowledge on the tax calculation on house property income</li> <li>Students will be able to obtain knowledge on income tax of business/ professional income.</li> <li>Students will be able to understand the administrative set up of income tax department and their powers</li> </ol>
FINANCIAL MANAGEMENT	<ol style="list-style-type: none"> <li>Students will be able to understand the basic Principles and practices of Financial management.</li> <li>Students will be able to the basic Principles and practices of capital structure decisions and dividend policy</li> <li>Students will be able to the knowledge and practice of arriving financial Decision makings under uncertainty</li> <li>Students will be able to acquire practical knowledge on Calculation of working capital and credit collection procedures</li> <li>Students will be able to gain knowledge on leverage and portfolio management</li> </ol>
<b>SEMESTER-VI</b>	
COST ACCOUNTING II	<ol style="list-style-type: none"> <li>Students will be able to understand the Computation of Job, Batch, and Contract Costing</li> <li>Students will be able to learn the preparation of Process Costing</li> <li>Students will be able to Impart knowledge about calculation of Operating Costing</li> <li>Students will be able to study about preparation of Marginal Costing.</li> <li>Students will be able to gain knowledge about Reconciliation of Cost and Financial Accounts</li> </ol>
WEB TECHNOLOGY	<ol style="list-style-type: none"> <li>Students will be able to understand the basics of HTML</li> <li>Students will be able to learn how to create style sheet rules</li> </ol>

	3. Students will be able to Impart knowledge about object in HTML 4. Students will be able to study about HTML server control methods 5. Students will be able to gain knowledge about cookies and working with data.
WEB TECHNOLOGY LAB	1. Students will be able to develop the basic programming skills in Web Technology.
INCOME TAX LAW AND PRACTICE-II	1. Students will be able to know the calculation of taxes for gain on capital asset. 2. Students will be able to know the tax on other source and its calculation. 3. Students will be able to know the adjustment of carry forward Income/Expenditure. 4. Students will be able to expertise in preparation of total income of individual/ firm etc. 5. Students will be able to gain knowledge on filing of income tax returns.
BUSINESS ENVIRONMENT	1. Students will be able to know the concept of external, micro macro of business environment. 2. Students will be able to study the economic policies and conditions in India. 3. Students will be able to understand the concept of social and technological environment. 4. Students will be able to acquire the knowledge of economic environment and GDP 5. Students will be able to gain knowledge on the concept financial environment and commercial banks
SERVICES MARKETING	1. Students will be able to understand the concepts and evolution of service marketing and personal selling 2. Students will be able to Explore the guidelines for physical evidence 3. Students will be able to perceive the pricing strategies in service marketing. 4. Students will be able to acquire the knowledge explore the quality issues of service marketing. 5. Students will be able to gain knowledge understand the different services organizations.
SOFTWARE ENGINEERING	1. Students will be able to enable Students to acquire knowledge on the evolution of software 2. Students will be able to understand the concepts relating to of data modeling concepts 3. Students will be able to impart knowledge about the design process 4. Students will be able to develop practical knowledge about the testing strategies in approaching software testing 5. Students will be able to update the Students on project management
DATA MINING	1. Students will be able to enable Students to acquire knowledge on the evolution of evolution of data mining and its kinds 2. Students will be able to understand the concepts relating to data processing 3. Students will be able to impart knowledge about the data warehouse 4. Students will be able to develop practical knowledge about the mining 5. Students will be able to update the Students data mining applications
INTERNET OF	1. Students will be able to enable Students to acquire knowledge on the

THINGS	<p>fundamentals of IoT</p> <ol style="list-style-type: none"> <li>Students will be able to understand the concepts relating to M2M, IoT Architecture</li> <li>Students will be able to impart knowledge about IoT model and views</li> <li>Students will be able to develop practical knowledge about IoT protocols</li> <li>Students will be able to Analyze applications of IoT in real time scenario</li> </ol>
INDUSTRIAL RELATIONS	<ol style="list-style-type: none"> <li>Students will be able to understand the basic concepts of industrial relations.</li> <li>Students will be able to the origin and growth and need of trade unions</li> <li>Students will be able to understand the concept of collective bargaining and workers participation in management</li> <li>Students will be able to acquire practical knowledge on industrial disputes Act. 1946</li> <li>Students will be able to gain knowledge through understanding the provisions of the factories Act 1948</li> </ol>

NAME OF THE PROGRAMME: M.COM (COMPUTER APPLICATIONS) - COURSE OUTCOMES	
SEMESTER I	
ADVANCED FINANCIAL MANAGEMENT	<ol style="list-style-type: none"> <li>Students will be able to understand the functions of finance Management.</li> <li>Students will be able to know about the long term sources of funds and environment of Working capital.</li> <li>Students will be able to gain information about capital structure and leverage</li> <li>Students will be able to gain knowledge about capital investment decision</li> <li>Students will be able to be acquainted with on the subject of working capital Management.</li> </ol>
MARKETING MANAGEMENT	<ol style="list-style-type: none"> <li>Students will able to know the core market and their functions.</li> <li>Students will able to know the various kinds of Pricing and various stages in product life cycle, new product development.</li> <li>Students will gain knowledge about the marketing channel and distribution.</li> <li>Students will learn about the kinds of advertisement and qualities of good salesman.</li> <li>Student will know about the recent trend in modern marketing and digital marketing.</li> </ol>
ADVANCED BUSINESS STATISTICS	<ol style="list-style-type: none"> <li>Students will be able to know partial and multiple correlations.</li> <li>Students will be able to know probability and binomial distribution.</li> <li>Students will know the issues surrounding sampling, hypothesis, z test and t test.</li> <li>Students will be able to have the awareness about application of chi- square distribution.</li> <li>Students will be able to know about analysis of variance and f test.</li> </ol>
COMPUTER APPLICATION IN BUSINESS	<ol style="list-style-type: none"> <li>Students will be able to understand the various components of a computer system: storage devices, input devices &amp; output devices</li> <li>Students will be able to develop an idea about world wide web and internet</li> </ol>

	browsing 3. Students will be able to know about the preparation and presentation of business documents using word document 4. Students will be able to will gain knowledge of about preparation and presentation of the business documents using excel sheet, 5. Students will be able to acquire the knowledge about how to prepare PPT-power point presentation using various transitions, animations and other layouts.
<b>COMPUTER ORGANIZATION AND ARCHITECTURE</b>	1. Student will be able to know the basic architecture of computer. 2. Student will be able to understand the organization of a computer system in terms of its main components. 3. Student will be able to understand different processor architectures and understand input/output mechanisms. 4. Student will be able to study the different ways of communicating with I/O devices and standard I/O interfaces. 5. Student will be able to understand the various parts of a system memory hierarchy.
<b>BUSINESS ENVIRONMENT</b>	1. Students will able to learn Theoretical Framework of Business Environment. 2. Students will able to make the Students knowledge about business Economic Environment of Business. 3. Students will able to Familiarize Current Political and Legal Environment. 4. Students will able to understand the Socio Cultural Environment and Ethics. 5. Students will able to learn the Latest Technology Environment for Business.
<b>ELEMENTS OF INSURANCE</b>	1. Students will be able to gain knowledge on functions, nature and principles of insurance 2. Students will be able understand the existence of Life Insurance and learn its benefits 3. Students will be able to gear up the principles and kinds of Marine Insurance 4. Students will be able to know the usefulness of Fire Insurance to the stakeholders. 5. Students will be able to know the Miscellaneous Insurance policies and Key players in Indian Insurance Industry
<b>CORPORATE SOCIAL RESPONSIBILITY</b>	1. Student will be able to acquire the knowledge Corporate Social responsibility of Business 2. Student will be able to know the Identify the factors influencing CSR policy and Global Organisation CSR 3. Student will be able to have to understanding of benefits of CSR to the company 4. Student will be able to know the institutional investors in corporate governance 5. Student will be able to know about corporate governance board and its power.
<b>SEMESTER-II</b>	
<b>HUMAN RESOURCE</b>	1. Students will be able to understand the concepts of Human Resource

MANAGEMENT	<p>Management</p> <ol style="list-style-type: none"> <li>Students will be able to understand Recruitment and Selection Procedure</li> <li>Students will be able to know the various ways of solving the employee grievances procedure.</li> <li>Students will be able to know the evaluation the methods of Performance Appraisal</li> <li>Students will be able to evaluate the Different Techniques of Training</li> </ol>
ADVANCED CORPORATE ACCOUNTING	<ol style="list-style-type: none"> <li>Students will be able to make them aware about the accounts of banking companies.</li> <li>Students will gain knowledge on preparation of accounts of insurance companies.</li> <li>Students will be able to know develop knowledge of holding company concept &amp; preparation of consolidated balance sheet.</li> <li>Students will be able to know about Inflation accounting and CPP method</li> <li>Students will be able to know about Human Resource Accounting in India.</li> </ol>
OBJECT ORIENTED PROGRAMMING USING C++	<ol style="list-style-type: none"> <li>Student will be to know about the basics of Object Oriented Programming using C++.</li> <li>Student will be to know about the objects and references.</li> <li>Student will be able to learn Overloading Constructor Functions and basics of operator overloading.</li> <li>Student will be to know about the Base class access control, inheritance and Some C++ I/O basics.</li> <li>Students will be to understand the Creation of your own manipulators and polymorphism, Exception handling.</li> </ol>
OBJECT ORIENTED PROGRAMMING USING C++ LAB	<ol style="list-style-type: none"> <li>Student will be to know about the basics of Object Oriented Programming using C++.</li> <li>Student will be to know about the objects and references.</li> <li>Student will be able to learn Overloading Constructor Functions and basics of operator overloading.</li> <li>Student will be to know about the Base class access control, inheritance and Some C++ I/O basics.</li> <li>Students will be to understand the Creation of your own manipulators and polymorphism, Exception handling.</li> </ol>

PRINCIPLES OF INFORMATION TECHNOLOGY	<ol style="list-style-type: none"> <li>1. Student will be to know about the Introduction to computer systems.</li> <li>2. Student will be to know about the Computer Memory Units.</li> <li>3. Student will be able to learn about the Computer Software, Database management systems.</li> <li>4. Student will be to know about the Computer networks and Communication system.</li> <li>5 Students will be to understand the Recent Trends of Multimedia system and E-Commerce.</li> </ol>
PRINCIPLES OF MANAGEMENT	<ol style="list-style-type: none"> <li>1. Students will be able to understand the principles &amp; Functions of Management</li> <li>2. Students will be able to understand the Planning and its importance</li> <li>3. Students will be able to understand the Organization and its importance</li> <li>4. Students will be able to understand the Authority, Responsibility &amp; Delegation.</li> <li>5. Students will be able to understand the Need for Co-ordination and importance of Control</li> </ol>
GLOBAL MARKETING	<ol style="list-style-type: none"> <li>1. Students will be able to understand the concepts of Global marketing and Marketing information system.</li> <li>2. Students will be able to get full information about global market entry strategies and direct investment.</li> <li>3. Students will be able to understand the global product policy and pricing for international market</li> <li>4. Students will be able to learn important Global Marketing Channels and Physical Distribution</li> <li>5. Students will be able to know about international marketing, promotional strategies and International Marketing communication.</li> </ol>
EXPORT AND IMPORT MANAGEMENT	<ol style="list-style-type: none"> <li>1. Students will be able to understand the International Trade and Foreign Trade Policy</li> <li>2. Students will be able to know the Balance of Payments and FEMA</li> <li>3. Students will be able to understand the Export Procedure and Export Documents.</li> <li>4. Students will be aware of the Guidelines of Import Procedure.</li> <li>5. Students will be able to know Export Pricing, Financing and EXIM Bank.</li> </ol>
<b>SEMESTER-III</b>	

<p style="text-align: center;"><b>GOODS AND SERVICES TAX (GST)</b></p>	<ol style="list-style-type: none"> <li>1. Students will able to know and familiarize with the fundamentals of Taxation.</li> <li>2. Students will able to know GST and its history of GST and their types.</li> <li>3. Students will able to know the exempted goods and Services under GST Act.</li> <li>4. Students will able to know the Administration of GST and Authority.</li> <li>5. Students will able to know how to avail the Appeal and Revision under GST Act</li> </ol>
<p style="text-align: center;"><b>ADVANCED COST ACCOUNTING</b></p>	<ol style="list-style-type: none"> <li>1. Student will be able to understand the basic concepts in Cost Accounting and also familiarizing with the preparation of Cost Sheets, Tenders and Quotations.</li> <li>2. Student will be able to understand Preparation of Process Costing.</li> <li>3. Student will be able to Know the Standard Costing and Variance Analysis</li> <li>4. Student will be aware of the Cost control and Cost Reduction.</li> <li>5. Student will be able to develop the knowledge about Activity based</li> </ol>
<p style="text-align: center;"><b>ENTERPRISE RESOURCE PLANNING</b></p>	<ol style="list-style-type: none"> <li>1. Student will be to know about Overview of enterprise systems.</li> <li>2. Student will be to know about the Overview of ERP software solutions.</li> <li>3. Student will be able to know about Planning Evaluation and selection of ERP systems.</li> <li>4. Student will be to know about the Maintenance of ERP.</li> <li>5 Students will be to understand the Future trends in ERP systems.</li> </ol>
<p style="text-align: center;"><b>DESKTOP APPLICATION USING C #</b></p>	<ol style="list-style-type: none"> <li>1. Student will be able to the differences between desktop application and web application.</li> <li>2. Student will be able to construct classes, methods, and access modifier and instantiate objects.</li> <li>3. Student will be able to create and manipulate GUI components in C# for windows application.</li> <li>4. Student will be able to code solutions and compile C# projects within the .NET framework using reflection and remoting.</li> <li>5. Student will be able to build the desktop application with Database.</li> </ol>

DESKTOP APPLICATION USING C # LAB	<ol style="list-style-type: none"> <li>1. Student will be able to the differences between desktop application and web application.</li> <li>2. Student will be able to construct classes, methods, and access modifier and instantiate objects.</li> <li>3. Student will be able to create and manipulate GUI components in C# for windows application.</li> <li>4. Student will be able to code solutions and compile C# projects within the .NET framework using reflection and remoting.</li> <li>5. Student will be able to build the desktop application with Database.</li> </ol>
MULTIMEDIA AND ANIMATION	<ol style="list-style-type: none"> <li>1. Student will be to know about to learn basics of Multimedia.</li> <li>2. Student will be to know about the Multimedia communication systems.</li> <li>3. Student will be able to provide Animation representations.</li> <li>4. Student will be to know about Compression &amp; Decompression.</li> <li>5 Students will be to understand the Multimedia Authoring &amp; Distributed Multimedia Systems.</li> </ol>
BUSINESS ANALYTICS	<ol style="list-style-type: none"> <li>1. Students will be able to understand the concept of Business Analytic</li> <li>2. Students will be able to understand the Categories of Business Analytical methods and models</li> <li>3. Students will be able to understand the Role and Significance of Decision Making.</li> <li>4. Students will be aware of the Modern Approaches in Decision Making and Common Problems in Decision Making</li> <li>5. Students will be able to know Value of Analytics in Decision Making costing.</li> </ol>
BANKING THEORY	<ol style="list-style-type: none"> <li>1. Students will be able to know classification of banks, ownership, function and banking structure in India.</li> <li>2. Students will be able to familiar with the Types and Functions of Commercial Banks.</li> <li>3. Students will able to analyse the Relationship between Banker and Customer.</li> <li>4. Students will be able to know the Functions of Central Banks</li> <li>5. Students will be able to Analyse Recent Trends in Banking Sector.</li> </ol>
STRESS MANAGEMENT	<ol style="list-style-type: none"> <li>1. Students will be able to understand the concept of Stress, Types and Causes of Stress</li> <li>2. Students will be able to understand the Personality its Types and Perception.</li> <li>3. Students will be able to understand the Emotional Intelligence - EQ</li> <li>4. Students will be aware of the Stress at Work Place.</li> <li>5. Students will be able to know Stress Management and Counseling skills</li> </ol>
<b>SEMESTER-IV</b>	

<b>DIRECT TAXES</b>	<ol style="list-style-type: none"> <li>1. Students we able to Contrast The Different Basic Concepts In Income Tax</li> <li>2. Students we able to understand and Compute Salary Income And Income From House Property</li> <li>3. Students we able to understand and Construct the Statements for Business. Income, Professional Income And Capital Gains</li> <li>4. Students we able to understand and Compute Income From Other Sources And Total Income Of Individuals</li> <li>5. Students we able to understand and Trace Assessment Procedure and Familiarizing Tax Planning</li> </ol>
<b>E-COMMERCE</b>	<ol style="list-style-type: none"> <li>1. Students will be able to understand the Applications of E commerce in business</li> <li>2. Students will be able to understand the Network Infrastructure of E Commerce.</li> <li>3. Students will be able to understand the Internet Protocols in E Commerce.</li> <li>4. Students will be able to understand the Network Security in E Commerce.</li> <li>5. Students will be able to understand the Types of Digital Documents in E Commerce</li> </ol>
<b>PROGRAMMING WITH JAVA</b>	<ol style="list-style-type: none"> <li>1. Student will be able to understand the basics of Object Oriented Programming concepts, Character Set, tokens, variables, data types, and operators and control structure</li> <li>2. Student will be able to understand the fundamental concept of Java like class and object, array, methods, and constructors and inheritance</li> <li>3. Student will be able to understand the concept of package, Exception Handling and Threading</li> <li>4. Student will be able to understand the concepts of Applets and AWT</li> <li>5. Student will be able to understand the concepts of JDBC connectivity.</li> </ol>
<b>PROGRAMMING WITH JAVA LAB</b>	<ol style="list-style-type: none"> <li>1. Student will be able to develop JSP page using various techniques</li> <li>2. Student will be able to develop JSF page using various techniques</li> <li>3. Student will be able to develop applications using Java Beans</li> <li>4. Student will be able to develop the applications using enterprise java beans.</li> <li>5. student will be able to working with Java API's for creating applications.</li> </ol>
<b>MOBILE COMPUTING</b>	<ol style="list-style-type: none"> <li>1. Student will be to know about to learn the basics of Mobile computing and its Applications.</li> <li>2. Student will be to know about Overview of Mobile IP.</li> <li>3. Student will be able to learn Mobile Communications.</li> <li>4. Student will be to know about Ad-hoc concepts and routing protocols.</li> <li>5 students will be to understand the Mobile Platforms and Applications.</li> </ol>

<p><b>FINANCIAL SERVICES</b></p>	<ol style="list-style-type: none"> <li>1. Students will achieve the target of students having better understanding of Financial Services in India.</li> <li>2. Students will be able to know the Collect the data from the students pertaining to venture capital</li> <li>3. Students know about Capital Market, Money Market Strategies and present position of stock market in India,.</li> <li>4. Students will be able to have the awareness of SEBI Guidelines and Structure and performance evaluation</li> <li>5. Students will be able to know about Investor Services &amp; Credit rating agencies.</li> </ol>
<p><b>ENTREPRENEURIAL DEVELOPMENT</b></p>	<ol style="list-style-type: none"> <li>1. Student will be able to acquire the basic knowledge and understand the types of contract and Agreement</li> <li>2. Student will be able to know the Identify the essential elements of contract and rules as to offer.</li> <li>3. Student will be able to have to understanding of law relating to indemnity and guarantee</li> <li>4. Student will be able to know the duties and rights of the Bailor and Bailee and Agent and Principal.</li> <li>5. Student will be able to know about law of Agency.</li> </ol>
<p><b>PROJECT DEVELOPMENT</b></p>	<ol style="list-style-type: none"> <li>1. Students will be able to understand the Project and its development:</li> <li>2. Students will be able to understand the Capital expenditure decisions of projects.</li> <li>3. Students will be able to understand the Economic Viability of the project.</li> <li>4. Students will be able to understand the Sources of Project Finance.</li> <li>5. Students will be able to understand the Project schedule and control mechanism</li> </ol>
<p><b>PROJECT / DISSERTATION WITH VIVA VOCE</b></p>	<ol style="list-style-type: none"> <li>1. Student will be to know the basics of Research.</li> <li>2. Student will be to know about process of Research.</li> <li>3. Student will be able to learn about the Methodologies in Research.</li> <li>4. Student will be to know about the Statistical Tools and techniques of Research.</li> <li>5 Students will be to learn Report writing.</li> </ol>
