What is NPTEL ?

NPTEL is an initiative by the IITs (IIT Bombay, Delhi, Guwahati, Kanpur, Kharagpur, Madras and Roorkee) and IISc along with full financial support by MHRD.

The main objective of the National Programme on Technology Enhanced Learning (NPTEL) is to enhance the quality of engineering and science education in the country by developing contents for undergraduate and postgraduate curricula using video and web based courses. These courses cover the syllabi prescribed by universities and approved by AICTE.

The basic objective of science and engineering education in India is to devise and guide reforms that will transform India into a strong and vibrant knowledge economy. In this context, the focus are as for NPTEL project have been, i) higher education, ii) professional education, iii) distance education and iv) continuous and open learning, roughly in that order of preference.

Man power requirement for trained engineers, scientists and technologists is far more than the number of qualified graduates that Indian educational institutions can provide currently. Among these, the number of institution having fully qualified and trained teachers in all disciplines being taught forms a small fraction. NPTEL helps disseminate teaching / learning content of high quality and uses technology for dissemination.

A large number of students who are unable to attend scholarly institutions will have access to quality content through NPTEL. All those who are gain fully employed in industries and all other walks of life and require continuous training and updating their knowledge can also benefit from well-developed and peer-reviewed course contents by the IITs, IISc and other partner institutions in NPTEL.

Some current statistics about NPTEL are :

- ♦ 1700+ courses in 21 disciplines
- ♦ 471+ million NPTEL Site visits
- ♦ 404+ million YouTube views
(We have a dedicated YouTube channel)
- ♦ 50,000+ hours of video & transcribed text material

NPTEL open online courses for certification :

Since March 2014, NPTEL started offering certification on courses offered in the open online mode, based on the MOOCs model. The features are :

- ♦ The course enrolment and learning is free while the exam comes for a nominal fee.
- ♦ The courses are offered by the faculty of IITs, CMI, IISc, etc. which are of duration 4 weeks, 8 weeks or 12 weeks.
- ♦ Lessons and assignments are released every week. Also, there is a discussion forum in which students can interact with the faculty member directly.
- ♦ At the end of the course, an in person proctored exam is conducted (which is optional); if the candidate writes and passes the exam, he/she will get a certificate.

Some Statistics :

- ♦ Courses completed so far : 1300
- ♦ Number of enrollment so far : 6.6Millions
- ♦ Number of exam registrations : 6.7 Lakhs
- ♦ July 2019 certification courses
in July 2019 : 359 courses
