Objectives

- To build a strong and continuous connection between alumni and the institution.
- To provide students with insights into career opportunities, industry trends, and real-world challenges through alumni experiences.
- To create awareness about the importance of science and its role in everyday life.
- To encourage scientific thinking and curiosity among students and the public and to promote interest in scientific research and innovation.
- To encourage innovation and creativity by motivating students to develop science models and experiments.

Summary Report

The PG and Research Department of Physics, under the School of Physical Sciences at Marudhar Kesari Jain College for Women (Autonomous), organized a Alumni Seminar on

28th February 2026. The Alumni Seminar was successfully organized with the objective of strengthening the bond between the institution and its alumni while providing valuable career guidance to current students. The programme served as a platform for alumni to share their professional experiences, career journeys, and industry insights.

During the session, the alumni speaker highlighted the importance of skill development, practical knowledge, communication skills, and continuous learning in achieving career success. Real-time experiences and challenges faced in the workplace, were discussed, which motivated students to prepare themselves for future professional demands.

Overall, the Alumni Seminar was informative, inspiring, and beneficial for students, fostering stronger alumni engagement and institutional development.

Our department celebrated **National Science Day** on the occasion of the discovery of the Raman Effect by C. V. Raman on 28th February. The celebration aimed to promote scientific temper and encourage innovation among students. Various activities such as Speech related to Women in Science and Photography related to Hidden Nature Physics competitions were conducted. Students actively participated and presented. The event created enthusiasm and curiosity among participants.

Outcome of the Program

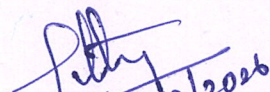

Student will able to,

- Gained awareness about the importance of physics in modern technological development.
- Apply their scientific knowledge creatively.
- Understand career opportunities and research prospects in physics.
- New sight on scientific thinking, curiosity, and academic motivation among students.
